Getting Started

About this User guide

This is the Photo Editor App User Guide for the Android Mobile Phones. The compatible android versions are from 2.2 to 4.4.

How to download the app?

Go to -> Google Play Store -> Search for Photo Editor App -> Accept the terms and conditions -> Click on Install.

Overview

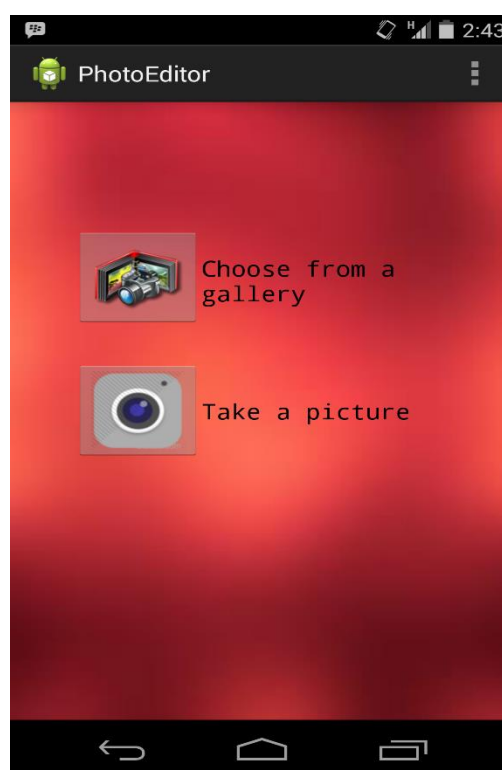

This app is used for editing your photos. You can either select the photo from your gallery or you can take a picture. The features of the app are explained in the manual later.

How to start the application?

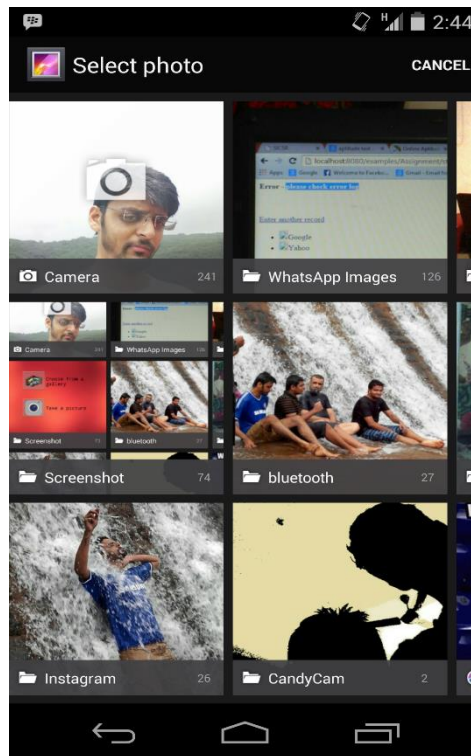

Click on the app icon and it will get started.

What to do next?

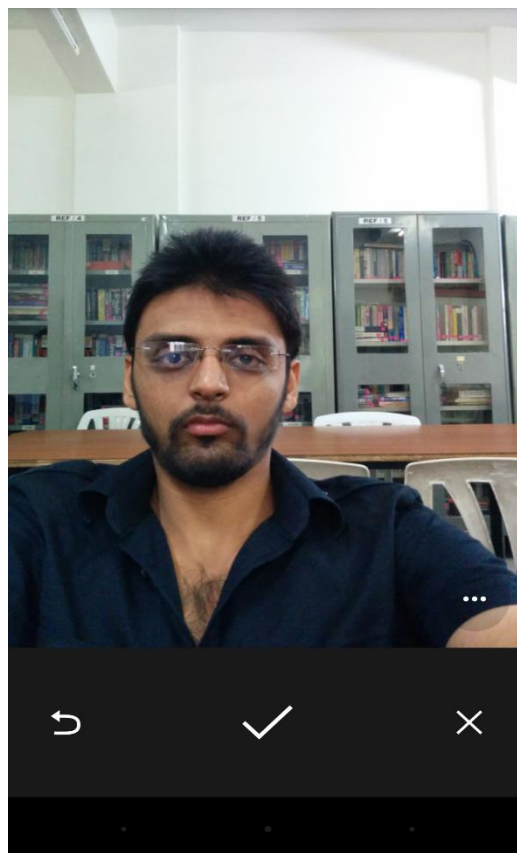

You will get the screen asking for either choose a picture from a gallery or click a new picture.

- If you have selected the option "Choose from a gallery", your phone gallery will be opened. Select the picture you want to edit.

- If you have selected the option “Take a picture”, Phone camera will be opened, Click a picture and click on “tick” mark to send it to the edit page.

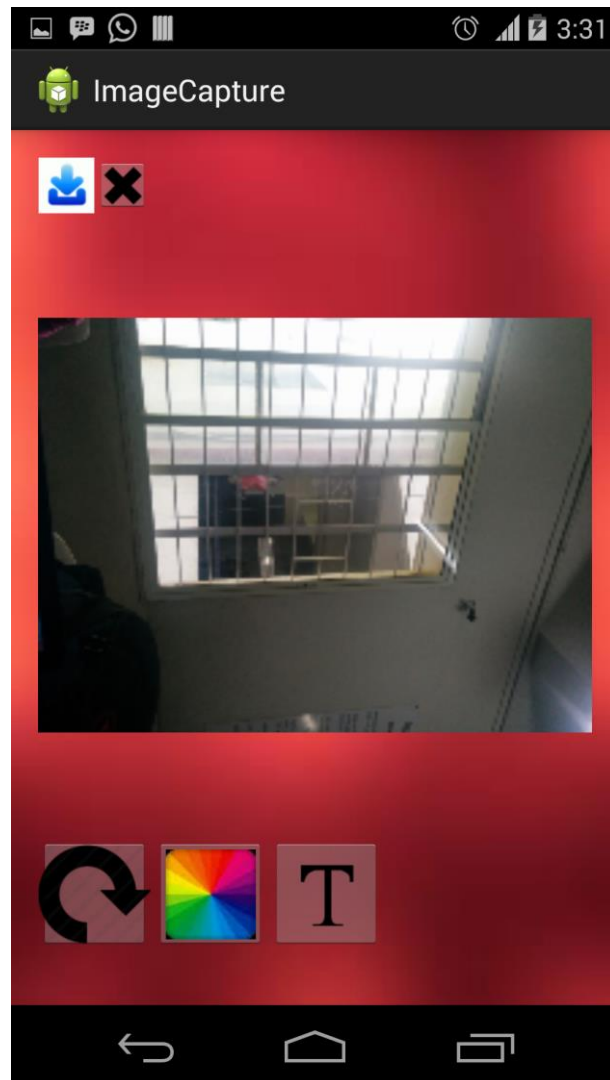

Features

1. Rotate

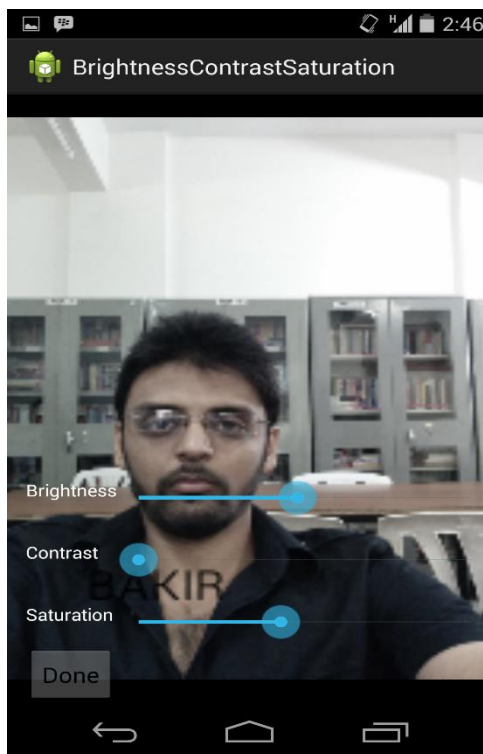

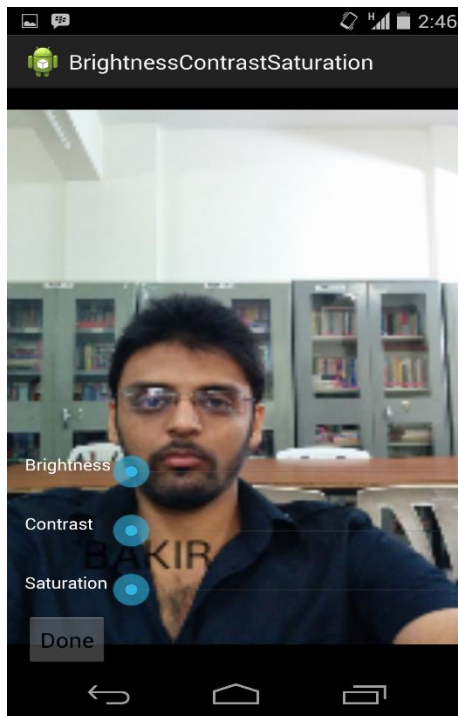

This feature is used when you want to rotate your photo. Using this feature your photo will be rotated 90°. Click on Rotate icon -> The photo will be rotated 90°.

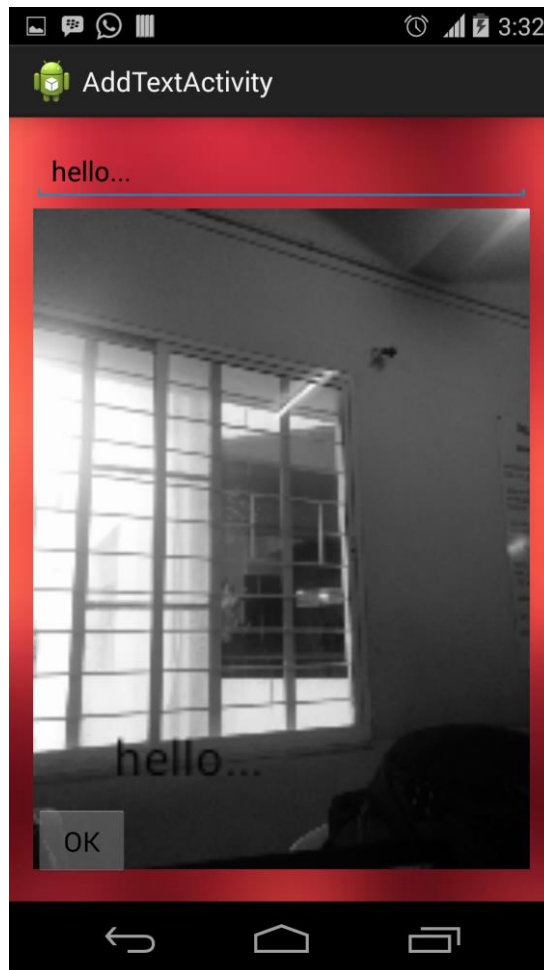

2. Brightness, Contrast and Saturation

This feature is used when you want to add some brightness or adjust the contrast or add some saturation in your photo.

Click on BCS icon -> A new screen will be opened -> On the new screen, you will find brightness, contrast and saturation seekbar. Move the bar as appropriate to your need to adjust the brightness, contrast and saturation. -> Click on done.

3. Text

This feature is used when you want to add some text to your photo.
Click on Text icon -> Enter Text -> Click on OK.

Saving your Photos

Click on Save icon. Your edited photo will be saved into the internal memory of your device.

Closing the Photo

If you do not wish to edit the photo, then Click on close icon. The editing screen will be closed.

Uninstalling the App

Keep pressing the app icon -> Uninstall screen will come up -> click on uninstall -> Your app will be uninstalled.
